

NOV 23 2021

U.S. DISTRICT COURT
W. DIST. OF N.C.

CHIEF JUDGE MARTIN REIDINGER, CAN
THE JUDGES IN WNC STOP USING
INCORRECT INJURIES TO MAKE FINA
JUDGEMENTS IN MY CASES?

1. How many judgments are you going to make
against Melvin Richard Robinson with
incorrect injury information?

2. Judge Bell and Metcalf continue to use the
wrong medical information.

3. I would like to know why Judge Bell in case
Robinson vs 1:20-cv-00358-KDB and Judge
Metcalf in case 1:2020cv00030 that both
judgments didn't include the updated medical
information. How can I have confidence in
Robinson vs Pardee Hospital
case number 1:2020cv00372 when Judge
Metcalf got my injuries incorrect for a second
time before I asked that he be removed from
my cases?

4. In three of my cases, two of your Judges
have made judgments off incorrect medical

information.

5. Could you inform the rest of the Judges in the WNC, Whitney, Conrad, Cogburn, Mullen, Voorhees, and Keesler to get my correct injuries with the updated medical information from Dr. Roush, my surgeon in Florida.

6. I would like to know why Judge Bell and Judge Metcalf continue to use the incorrect medical information for South Eastern Sports Medicine when I was misdiagnosed? Why are the Judges in WNC using Cervical DDD with radiculopathy, lower back DDD, left shoulder tendinitis, carpal tunnel syndrome, anxiety and depression?

7. What steps are the Federal Court House in WNC going to take to get my injuries correct?

8. What do I need to do to correct this oversight?

CORRECT INJURIES

After a car accident that wasn't my fault I was misdiagnosed when I transferred care to Southeastern Sports medicine and they changed my injuries and committed evidence to conceal the misdiagnosed injuries. Who does and emg on one left arm wit next and back pain. They left me with untreated MRI disc herniation, bulges, spinal straitening, and a concussion.

My correct injuries are MRI surgical C5-C6 central herniation with bilateral radiculopathy spondolysosis with for foranimal encroachment ,C3-C4 bulges, cervical lordic straitening, C5-C6 has bilateral EMG nerve damage, bilateral shoulder capsilitsis, bursitis and tendiitis, MRI ,Lower back L5-S1 surgical Broad Based disc herniation with annular and bilateral radiculopaty with emg evidence of 2 misdiagnosed pinch nerves caused by disc

herniation from a traumatic event. Concussion syndrome with headaches, blurred vision, hot flashes, dizziness, trouble concentration, memory issues, trouble multi tasking

INCORRECT MEDICAL INFORMATION

1. X ray Cervical DDD with radiculopathy, X ray left shoulder tendinitis, x ray lower back DDD, anexity and depression
